EDUCATION IS NOT EXPENSIVE! LACK OF EDUCATION IS!

Teaching Novices to Trade, and Traders to Reach Their Maximum Potential

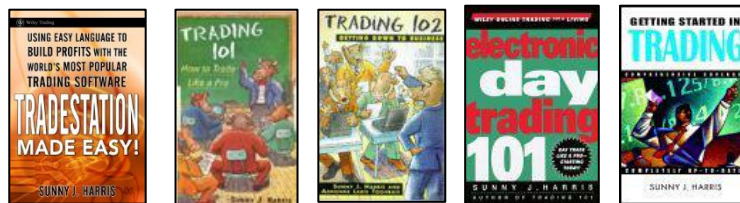

The indicators and strategies offered by Sunny Harris are the same ones she uses for her own personal trading. All the products were developed for her own trading, not just to have something to sell (like many other vendors). With the license of any of these products comes personal training in how Sunny uses them.

Consulting & Mentoring

Whether you want Sunny to do it for you, or to learn how to do it yourself, you've come to the right place. Sunny Harris has dozens of years' experience teaching newcomers and veterans alike to trade, to code, and to do the research necessary to become a great trader. Take a look on our website (www.moneymentor.com) if you'd like to see the full agenda of subject matter Sunny likes to teach.

The indicators and strategies offered by Sunny Harris are the same ones she uses for her own personal trading—every day. All the products were developed for her own trading, not just to have something to sell (like many other vendors). With the license of any of these products comes personal training in how Sunny uses them.

Please feel free to contact Sunny for more information. (760) 908-3070

Cutting Edge Advice

- You can spend the next five years learning it on your own, or the next five weeks studying with Sunny.
- It's up to you.
- Sunny can do the work for you, or teach you to do it yourself.

Sunny Harris Enterprises, Inc. (SHE) helps you get past the preliminary research, and onto your real goal — trading your systematic rules and mastering the markets.

Sunny can assist you in your trading endeavors in several important ways:

Mentoring, listening to your ideas, evaluating them and making suggestions, helping you learn TradeStation, MultiCharts, MetaStock, Genesis Navigator, MultiCharts, BestChoice, NinjaTrader, or a myriad of other programs, quicker than you would on your own.

Sunny's mentoring also brings in her 30+ years of trading experience to the picture, with her in-depth knowledge of what works and what doesn't. Over the years of her own personal trading, she's read over 800 books on trading and tried the concepts in them all. She has helped more than 10,000 traders with designing their own systems, from individuals with \$5,000 to trade to highly placed institutional traders managing billions of dollars. Sunny has seen it all! Wouldn't you rather know right up front if your idea holds promise, or is one she's already seen fail?

Sunny's consulting can take many forms:

- She can listen to your ideas and your aspirations, and your needs and wants, and program indicators for you.
- She can teach you how to program them for yourself. Or a combination of both.
- Or, you can work on your strategies and then compare them to Sunny's standard proprietary strategy and see if you might want to purchase a license to use Sunny's diehard trading strategy (SDMA Histo + Exits). This is the system Sunny uses every day, and has since 1986.
- Sunny can also help you put together your traders' business plan. You need this plan just like any other legitimate business. She can show you which books to read, and in which order. She can separate the shams from the scholars for you. She can help you decide which way to turn next.

Do you REALLY want to learn to trade? Or are you just looking for a fast buck? If you are not serious about becoming a life-long student of the markets, a dedicated professional, then don't come here.

Consulting is available, either in person or over the phone, or over the internet.

If you live in Southern California, you might want to take the short drive to Oceanside and meet in person. Finger pointing works best in person. We can draw pictures on charts and Sunny can program your ideas right in front of you, and at the same time teaching you what she's doing. It's immensely valuable this way. Double for your money.

Many people who don't live in Southern California take a couple of days off and fly to Oceanside to meet with Sunny in person. It's well worth the trip. One of Sunny's regular clients comes from South America to spend the day with Sunny.

Combining phone and internet, we can work virtually in person using CrossLoop, TeamViewer, GoToMeeting or the LogMeIn program. It hooks our computers together (long-distance) and we look at the computer while talking on the phone about what I'm doing. It makes it very easy to exchange ideas and program without making the trip.

Sunny has worked with more than a thousand people this way, and they have generally become successful traders, still trading the markets.

Sunny Harris Enterprises, Inc. (SHE) is the only company of its kind, offering unbiased assessment of trading tools and methodologies. SHE is not affiliated with any software or hardware vendors. We independently offer unbiased evaluations and recommendations based on your situation and needs.

SHE's years of research lets you avoid the trial and error process of evaluating what works for you.

Let SHE keep you from becoming overwhelmed with setting up your trading plan, your strategies and systems, and your trading business.
