EDUCATION IS NOT EXPENSIVE! LACK OF EDUCATION IS!

Teaching Novices to Trade, and Traders to Reach Their Maximum Potential

Learn to Trade at Home

Distance Education is the most convenient way to learn. Whether you prefer Internet training, CD-Rom or Correspondence Lessons, this “do it in your own time-frame” approach makes a lot of sense.

Sunny J. Harris, author of *Trading 101—How to Trade Like a Pro*, *Trading 102—Getting Down to Business*, *Electronic Day Trading 101*, *Getting Started in Trading* and the new *TradeStation Made Easy!*, as well as host of The Money Mentor (<http://www.moneymentor.com>), and publisher of *Traders' Catalog & Resource Guide*, personally instructs you.

This 20-lesson course was designed by Sunny, based on her acclaimed Trading 101 and Solving the Puzzle Seminars, and leads you through the step-by-step process of becoming a trader.

Each lesson builds upon the previous, taking you thorough the elements you will need to understand all the math and technical analysis necessary to begin trading. With each lesson you will spend time on the telephone with Sunny Harris, reviewing your problem reas, and preparing for the next lesson.

The normal consulting fee of \$695 per hour is waived for all time spent with Sunny on the phone relating to this course. At only \$3,995 for 20 weeks of custom-designed study, the value is tremendous!

Our Distance Education Includes:

- 20-week custom-designed study schedule for individual study
- 20 complete chapters with a battery of unique drills and quizzes
- Online Study Lessons
- Easy to read narrative style that coaches as it teaches
- Free comprehensive glossary of terms (\$125 value)
- Smart and attractive workbook and lessons integrated into the study schedule
- Exam forms and pre-paid mailing envelopes to return each exam to us for scoring
- Certificate of Completion
